

Discover Vesping

In every big city you visit, you can always find cars and scooters rentals and be able to move from one point to the other more easily. It is always nice to know that you don't have to depend on any common transportation and you can be totally dependent. But what if you don't know the city. You might have a vehicle but which places are you going to visit, in which cool restaurants and bars are you going to spend your time? Not easy to say when you have no idea where you have landed and what are the best spots in the city.

Valentino and Vittorio Cicero, 2 italian brothers have taken that in account when creating Vesping about 5 years ago. This Vespa rental agency innovated by creating GPS-guided tours. When going there, not only will you get a scooter but you will also be able to relax and enjoy your stay in Barcelona thanks to the 4 different tours integrated in the GPS. They will bring you to the best places of the city. Thanks to personalized tips, you will discover tipical Catalan tapas places and restaurants, places to shop and great parks.
